SEARCH RESULTS FOR "VOLUTE"

**Volute Wine**  
by CBZ

Volute Wine is packaged in a lightweight, eco friendly aluminum bottle. The company chose to use aluminum not only because it brings qualities identical to glass, but it also protects the wine from light. Aluminum is also ecologically more responsible since it's infinitely recyclable, unbreakable and generates less transportation related pollution due to its lower weight. The Bordeaux's are available in red, white and rose varieties. [www.volutewine.com](http://www.volutewine.com)
